

Paul Wilson

Greenwood Village, Colorado

I have been active in the Model A hobby, a member of the Model A Ford Club of Colorado, (MAFCC), and MAFCA since 1991. I served in numerous supportive, administrative and board capacities with MAFCC including contributing roles in several regional meets. Board positions include secretary, treasurer and president. I currently serve on the Steering Committee for the 2016 MAFCA National Convention. My wife and I own three Model A's. While none are road worthy, I attend several technical seminars at local, regional and national levels. I have hands on experience with the preservation, restoration and maintenance of the Model A. I have earned the Senior Judge classification as awarded by MAFCA's certification program. I retired from an administrative and financial management position at a local university. If elected, I will bring a high level of organizational, administrative and customer relation skills to MAFCA.

Paul Whitney

Binghamton, New York

I've been involved with Model A's since I acquired an old tractor refitted with a Model A motor that didn't run. I replaced the timing gear, brought it to life, and plowed our large vegetable garden, mowing hay and pulling the hay wagon. That was 55 years ago, I have owned other marquees including a Packard, but I'm always drawn back to Model A's and my current 1929 Sport Coupe. With my wife Lynn, we own CMS, a Canon Office Machine Dealer providing copy, fax, print, scan and connectivity products in the Binghamton, New York area. My experiences as chairman of an AACA Spring National Meet along with hosting the Great Race in Binghamton twice for overnight stops and winning the best overnight city would enhance MAFCA events. I would be honored to become a MAFCA Director ... and promise to direct my efforts towards making MAFCA membership a delightful experience for all members.

Trudy Vestal

Placerville, California

Serving as Treasurer of MAFCA currently, I would like to offer my name for re-election to a second term on the MAFCA board. Many challenges face our organization; I would like the opportunity to make a difference. Having been a member for 30 years I am active in the hobby on many levels; which include local, regional and National. The future of MAFCA is the inclusion of all interests in the Model A hobby and I want to be part of the group that offers some thought on how to grow our hobby. The most important part of MAFCA are the members and the wonderful social environment the hobby allows. One road trip is all it takes to understand the hobby is as much about people as it is the Model A. I would be proud to serve on this esteemed board for two more years. I welcome your vote.

Garth Shreading

Sour Lake, Texas

I was honored to have served MAFCA as Chapter Coordinator, Treasurer and twice as President. Throughout those years my understanding of the importance of the local chapters and ways to support them grew significantly. Recently I served as co-chair of MAFCA's 4th National Tour, "A" Texas Spring. I have served my chapters in both Bakersfield, California and Beaumont, Texas as president,

vice president, treasurer, newsletter editor and webmaster as well as the chair of the 2004 CCRG Jamboree. Currently I serve as a MAFFI Trustee. Without a doubt, the highlight of my Model A life has been both the cars and the opportunity to meet the greatest people on earth, Model A people. Having been a successful business owner I learned strong organizational skills and the value of commitment to hard work and strong personal relationships. Along with my wife of 37 years I reside in south-east Texas.

Mark Smith

Melvin Village, New Hampshire

Mark's interest in Model A's started in 1961, when his dad bought a 1929 Leatherback. That sedan, which Mark restored, three other A's and two T's reside in his garage. A 40 year member of MAFCA, Mark is proud to be a founding member of two Model A clubs, serving twice as Worcester Model A club president, and first president of the NH Lakes Region club, where he is again serving as president. Mark served as co-chairman of the 2009 New England Regional meet in NH; and oversaw the operation of a major car show for three years. Mark retired in 2012 after 40 years from a family owned business and has experience in many areas of running a small business. Mark would like to serve on the MAFCA Board and give back to the club and hobby that he and his wife Heather enjoy so much.

David Bockman

Visalia, California

A member of MAFCA and local chapters since 1989, I have contributed many technical and informational articles for chapter newsletters and "The Restorer." I am a current board member and past president of the CCRG and past president of two Model A chapters. A retired Dean of Vocational Education at College of Sequoias and former member of the Board of Education for the Visalia Unified School District, I currently operate a successful walnut growing business. I bought my first Model A for \$1.00 in 1960 and drove it to college and as a professor at CSU Fresno. Today, I own and drive several Model A's that I have restored and have judged the Model A class at the Fresno Concourse of Champions. I love driving my Model A, am a willing leader, and have a robust desire to serve on the MAFCA Board. I would appreciate your vote.

Jay McCord

Santa Maria, California

I have been an active member of MAFCA for 35 years. I have been married to my wife Kay for 36 years. I retired with ExxonMobile after 37 years. I have served the Santa Maria A's in various board positions including President for six years. I am a MAFCA judge and have judged at two National Meets. Involved in community affairs, I have received the Silver Beaver Award from the Boy Scouts of America and am very involved with my church. I have served as a trustee and Secretary for the Model A Ford Foundation. I am proud of my involvement in the great museum that has been built to preserve our Model A Cars and era. As the co chairman of the Santa Maria All Ford Car Show, I have demonstrated my ability to coordinate a big project for the past 12 years. I am running for the MAFCA Board to provide service to our hobby and hope to be elected.
