

READING THE DIGITAL RESTORER

July 17 - Ever wish you could zoom in on the text while reading the **Digital Restorer** on your computer? Well, you can!

Just **double-click** on any page and 3 zoom controls will appear on the lower right side of the screen. The + will zoom in; the - will zoom out. And the double-sided arrow will exit the zoom mode. This will work on any Mac or Windows computer.
