

Smoky Mountain Model A Region

July 12th three A's with six hearty souls headed to Auburn, IN for MAFCA's tour. All A's drove great over back roads there & linked up with four more trailered A's. We were glad to see the large number of people with A's present for the reception dinner. We're now in the midst of the touring Amish-Mennonite country enjoying their country cooking. Ahead lies Notre Dame University, the Studebaker and Gilmore museums. The Auburn, Cord, Duesenberg site will be the finishing touch.
