## All the News Fit to Print

### Issue #4 – February 2010

*Get ready for a great adventure in Model A'ing.* The endurance of the Model A will challenge the endurance of the legendary Pony Express riders of 150 years ago. Although we will be travelling on modern paved highways and have convenient stops along the way, we can still imagine the hardship and tenacity of those early riders as they crossed this great country of ours.

This driving tour is what many have been asking for; to visit our vast country as many of our families did 80 years ago in a Model A. Preparation is the key ingredient for this tour. Remember this tour is designed to be 1900 miles one way. Getting from your home base to your selected starting point and return will add more miles to your trip. We wish to stress that your car needs to be in tip top condition and to carry those spares you feel might come in handy. **A reminder:** cell phone service along this route can be spotty to non-existent. If you have a CB radio, we recommend that you bring it along.

## **REGISTRATION FORMS ARE NOW ON THE MAFCA WEB PAGE**

<http://mafca.com/PonyExpress.html>

In addition to the Registration Forms a complete listing of accommodations in each of the designated overnight towns will be available. Please remember to make your reservations in each of the towns you will be overnighing. While in Casper the Best Western Ramkota will be the host hotel and has set aside 200 rooms, however you are free to choose any accommodation, all are very close to the host hotel.

Your registration will include a tour bag, tour book with driving instructions, Official Pony Express 150 license plate, two 12" magnetic door signs with the Pony Express 150 logo, tour patch, name badge and pin.

Enthusiasm and anticipation in the many towns along the Pony Express Route is growing.
